<p>Investment strategy of the scheme</p>	<p>The scheme aims to generate stable returns by investing predominantly in debt & money market instruments issued by Banks, Public Financial Institutions (PFIs) and Public Sector Undertakings (PSUs). The Scheme shall endeavor to generate optimum returns with low credit risk. Investment in debt & money market instruments issued by Banks, PFIs, PSUs, Treasury Bills & Government Securities is primarily with the intention of maintaining high credit quality & liquidity. At least 70% of the net assets of the Scheme shall be invested in securities rated AAA/A1+ / Sov and equivalent. Balance may be invested in securities rated below AAA/A1+ / Sov and equivalent. The investment team of the AMC will carry out rigorous in depth credit evaluation of the Debt & Money Market Instruments proposed to be invested in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term/ long term financial health of the issuer.</p>	<p>The investment objective of this scheme is to maximize returns to the investor through an active management of the portfolio, by elongating the duration of the portfolio in a falling interest rate scenario and reducing the duration at a time when interest rates are moving up. With the discretion to take aggressive interest rate/duration risk calls, this could mean investing the entire net assets in long dated Government securities and debt instruments (carrying relatively higher interest rate risk/duration risk), or on defensive considerations, entirely in money market instruments. Accordingly, the interest rate risk/duration risk of the scheme may change substantially depending upon the Fund's call.</p>														
<p>Risk profile of the scheme</p>	<p>Mutual Fund units involve investment risks including the possible loss of principal. Scheme specific Risk Factors are summarized below: The scheme carries risks associated with investing in debt and money market securities, short selling, debt instruments having credit enhancements and securities lending. Investment in mutual fund units/debt and money market instruments involves investment risks such as interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, default risk, creation of segregated portfolio, etc. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments. Please read the SID carefully for details on risk factors before investment.</p>	<p>Mutual Fund units involve investment risks including the possible loss of principal. Risk profile of the scheme (Contd.)	Investments in 'REIT' & 'InvIT' have risks associated with price-risk, credit risk, liquidity and marketability, re-investment risk and risk of lower than expected distributions. Please read the SID carefully for details on risk factors before investment.																																																																							
Creation of segregated Portfolio	In case of credit event, the Scheme may create segregated portfolio of debt and money market instruments in terms of applicable SEBI regulations/ circulars.																																																																							
Risk management strategies	Interest rate risk is managed by a meticulous determination of the average maturity of the portfolio. Extensive analysis of macro economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments. The AMC endeavours to invest in REITs/InvITs, where adequate due diligence and research has been performed. The Scheme also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.

Investment strategy of the scheme	<p>The Scheme will aim to generate credit risk-free returns through investments in sovereign securities issued by the Central Government and/or State Government.</p> <p>The Scheme shall invest in Government Securities, which provide reasonable returns generally construed to be without any Credit Risk. The Scheme shall invest in various State and Central Government securities including securities which are supported by the ability to borrow from the treasury or supported only by the sovereign guarantee or of the state government or supported by GOI /state government in any other way as may be permitted by SEBI. It may also invest in repos/ reverse repos in such securities, as and when permitted by RBI. The Scheme will also invest in money market securities from time to time upto the prescribed limit. Investment views/decisions will be based on analysis of macro-economic factors to estimate the direction of interest rates and level of liquidity and will be taken on the basis of factors like, prevailing interest rate scenario, Government borrowing program, level of liquidity in the banking system, inflation level, returns offered relative to alternative investments opportunities, quality of the security/instrument, maturity profile of the instrument, liquidity of the security and any other factor considered relevant in the opinion of the fund manager.</p> <p>The Scheme will purchase securities in the public offerings, as well as those traded in the secondary markets. On occasions, if deemed appropriate, the Scheme may also participate in auction of Government Securities. The Mutual Fund will seek to underwrite issuance of Government Securities if and when permitted by SEBI/RBI and subject to the prevailing rules and regulations specified in this respect and may also participate in their auction from time to time.</p> <p>The Scheme may also use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time for the purpose of hedging and portfolio balancing within the limits permitted by the Regulations from time to time.</p>	<p>The Scheme proposes to invest in a diversified portfolio of debt and money market securities to generate optimal risk adjusted returns in the medium term.</p>												
Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in Government Securities, Treasury Bills, Repo & Triparty Repos, short selling, debt instruments having credit enhancements and securities lending.</p> <p>Investment in mutual fund units involves investment risks such as interest rate risk, re-investment risk, liquidity risk, etc. Also, the value of the Scheme investments may be affected by changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, etc.</p> <p>Please read the SID carefully for details on risk factors before investment.</p>	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below: The scheme carries risks associated with investing in debt and money market securities, derivatives, Foreign Securities, securitized debt, debt instruments having credit enhancements, short selling and securities lending.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, etc.</p> <p>Investments in 'REIT' & 'InvIT' have risks associated with price-risk, credit risk, liquidity and marketability, re-investment risk and risk of lower than expected distributions.</p> <p>Please read the SID carefully for details on risk factors before investment.</p>												
Creation of segregated Portfolio	In case of credit event, the Scheme may create segregated portfolio of debt and money market instruments in terms of applicable SEBI regulations/ circulars.													
Risk management strategies	<p>The Scheme invests predominantly in government securities which are actively traded and thereby liquid. The portfolio will be actively managed, based on the interest rate view, shape of the yield curve and the spread between the corporate bonds and gilt securities. This could lead to high turnover in the portfolio to help achieve the investment objective of the Scheme. However, reasonable investments can be made at the shorter end of the yield curve and in the on-the-run securities which are the most actively traded segment in the secondary market. This would help to manage liquidity requirement of portfolio.</p>	<p>Interest rate risk is managed by a meticulous determination of the modified duration of the portfolio. Extensive analysis of macro economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments.</p>												

Risk management strategies (Contd.)	The AMC endeavours to invest in REIT's/InvIT's, where adequate due diligence and research has been performed. The Scheme also relies on its own research as well as third party research. This involves one-to-one meetings with the managements, attending conferences and analyst meets and also tele-conferences. The analysis will focus, amongst others, on the predictability and strength of cash flows, value of assets, capital structure, business prospects, policy environment, strength of management, responsiveness to business conditions, etc.

Investment strategy of the scheme	<p>The risk-return profile of this fund positions it in between a liquid fund and short duration income fund. The portfolio strategy seeks to increase yield by having a marginally higher maturity and moderately higher credit risk as compared to a liquid fund; whilst maintaining balance between safety and liquidity. The Macaulay duration of the portfolio of the Scheme will be maintained between 6 months - 12 months depending on the interest rate view. The Scheme stands to expose to market risk which can get captured partially by "mark to market component" thereby inducing a potential daily volatility. Also, the Scheme will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The Scheme will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.</p>	<p>The scheme proposes to invest in a diversified portfolio of high quality debt and money market securities to generate stable risk adjusted returns with a low risk strategy. The fund manager will seek to look for investment opportunities at different maturities of the same yield curve (e.g. the government securities yield curve) as well as look at the differentiated levels of risk premium offered by the market to different class of issuers (e.g. 2 year yields offered by a government security, an NBFC and a manufacturing corporate).</p>										
Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in debt and money market securities, derivatives, Foreign Securities, securitized debt, debt instruments having credit enhancements short selling and securities lending. Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments. Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, etc.</p> <p>Please read the SID carefully for details on risk factors before investment.</p>											
Creation of segregated Portfolio	In case of credit event, the Scheme may create segregated portfolio of debt and money market instruments in terms of applicable SEBI regulations/ circulars.											
Risk management strategies	<p>Interest rate risk is managed by meticulous determination of average maturity (which is the expression for change in portfolio value for a basis point change in interest rate) of the portfolio. Extensive analysis of macro economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments.</p>	<p>Risk Management is an integral part of the investment process and adequate safeguards for controlling risks would be incorporated by the Asset Management Company (AMC) in the portfolio construction process. The following are the key risks associated with investments in fixed income securities and the manner the AMC would endeavor to address them</p> <p>Risk Involved Interest Rate Risk: Risk that arise in interest rates will cause price of bonds to fall. In general, there is an inverse relationship between interest rates and bond prices so that when interest rates rise, bond price fall and vice versa. Risk Mitigant: The average modified duration of a portfolio is one of the means of measuring the interest rate risk of the portfolio. Higher is the modified duration, the fund stands exposed to a higher degree of interest rate risk. The Investment Review Committee (IRC) of the Asset Management Company would decide on the modified duration to be maintained for the portfolio</p>										

Risk management strategies (Contd.)	<p>at a particular point of time after taking into account the current scenario and the investment objective of the scheme. The portfolio duration will be decided after doing a thorough research on the general macroeconomic condition, political environment, systemic liquidity, inflationary expectations, corporate performance and other economic considerations.</p> <p>Credit Risk: Risk of default on payments by the issuer of a security .</p> <p>Risk Mitigant: The credit analyst will make a detailed study of each of the issuers whose security will be bought by the fund. His analysis will include a study of the operating environment, past track record and short term/long term financial health of the issuer. The credit analyst will also take the help of data from external credit rating agencies like ICRA, CRISIL and Fitch during his analysis. The Credit Analyst will recommend the name of the issuers to the IRC who will be the final approving authority for including any issuer in the "target universe of issuers" .</p> <p>Liquidity Risk</p> <p>Risk Mitigant: The Mutual Fund will maintain adequate cash/cash equivalent securities to manage the day to day redemptions of the fund. Attention would be given to the historic redemption trends while deciding on the cash equivalent component of the portfolio.</p> <p>Further, the scheme would also make investments only in high quality debt and money market instruments to mitigate the risk of illiquidity of the portfolio.</p> <p>The AMC would endeavor to identify & measure risks through various risk measurement tools like various risk ratios and analyze the same to be able to act in a preventive manner.</p>

Differentiation with existing open ended debt schemes (as on September 30, 2021, 2021)	For comparison of Existing Schemes, Investment Objective, Asset Under Management (AUM) and number of folios, please refer to point no. 7 on page 29 to 31.																																						
Investment strategy of the scheme	<p>Under normal circumstances, the fund shall seek to generate reasonable returns commensurate with low risk by positioning itself at the lowest level of the risk-return matrix.</p> <p>The Scheme will invest predominantly in money market securities with some tactical allocation towards other debt securities to enhance returns from the portfolio.</p>	<p>To generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns. The fund manager will endeavour, through a process of robust credit risk assessment & research, to identify optimum credit opportunities in the market and invest in such instruments offering higher yields at acceptable levels of risk.</p> <p>Axis Credit Risk Fund is a fixed income fund which will endeavor to generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum. This fund will have the ability to maintain a relatively higher exposure to fixed income instruments which are not AAA& equivalent.</p> <p>The fund endeavors to take advantage of opportunities arising from the credit spectrum. Historically, the spread between AAA and AA is dynamic and changes over time. The fund manager can dynamically change the portfolio credit composition to take advantage of these opportunities.</p> <p>The fund proposes to take advantage of opportunities arising from the credit spectrum. Some of the strategies that we may follow are as follows:</p> <p>1) Opportunity from credit spreads between AAA and AA rated fixed income instruments 2) Opportunity from migration of ratings</p> <p>The above are some examples of credit strategies currently available in the Indian fixed income markets. The fund will endeavor to use other credit strategies across the spectrum as & when they are available in the Indian markets.</p> <p>Assuming there is an opportunity from the migration of ratings. Through the Axis credit process, we endeavor to avoid taking exposures where there is a risk of downgrade and take exposure in cases where we think there is a potential for an upgrade. The fund will aim to take advantage of these opportunities from credit spreads as well as potential from rating migrations.</p> <p>The fund manager will try to allocate assets of the scheme between various fixed income instruments taking into consideration the prevailing interest rate scenario, the liquidity of the different instruments and maintain a diversified portfolio with the objective of achieving stable risk adjusted returns. While investing the fund manager will keep in mind the yield structure of different asset classes (e.g. the sovereign yield curve and the corporate bond yield curve) as well as kinks within a particular yield curve (e.g. the different points of the sovereign yield curve).</p> <p>After doing a thorough research on the general macroeconomic condition, political environment, systemic liquidity, inflationary expectations, corporate performance and other economic considerations the portfolio duration and credit exposures will be decided.</p>																																					
Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below: The scheme carries risks associated with investing in debt and money market securities, derivatives, Foreign Securities, securitized debt, debt instruments having credit enhancements, short selling and securities lending.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, etc.</p> <p>Please refer to the SID for further details.</p>	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below: The scheme carries risks associated with investing in debt and money market securities, derivatives, Foreign Securities, securitized debt, short selling, debt instruments having credit enhancements and securities lending.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Risk management strategies	Interest rate risk is managed by meticulous determination of average maturity (which is the expression for change in portfolio value for a basis point change in interest rate) of the portfolio. Extensive analysis of macro economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments. Investment strategy of the scheme	<p>The investment objective of the Scheme is to generate returns by investing primarily in debt and money market instruments with overnight maturity.</p> <p>The total assets of the Scheme will be invested in debt securities and money market instruments maturing on or before next Business Day. In case of securities with put and call options (daily or otherwise) the residual maturity (deemed or actual) shall be on or before the next Business Day. Investments under the Scheme would be made predominantly in Tri Party Repos, overnight reverse repos and fixed income securities/instruments with a residual maturity of 1 business day. The Scheme may invest in Overnight schemes of other mutual funds.</p> <p>The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments proposed to be invested in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term / long term financial health of the issuer.</p>		<p>The investment objective of the Scheme is to generate regular income and capital appreciation by investing in a portfolio of short term debt and money market instruments with relatively lower interest rate risk. The Scheme will maintain the Macaulay duration of the portfolio between 3 months and 6 months.</p> <p>The Scheme endeavors to maximize return while maintaining higher liquidity. The portfolio maturity will be determined after analyzing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.</p> <p>The Scheme is likely to have higher maturity than a liquid fund. However, the Macaulay Duration of the portfolio for the Scheme will be maintained between 3 months to 6 months depending on the interest rate view. As a result, the Scheme stands to expose to market risk which can get captured partially by mark to market component thereby inducing a potential daily volatility. Also, the Scheme will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The Scheme will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.</p> <p>The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments proposed to be invested in. Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in debt and money market securities, securitized debt & debt instruments having credit enhancements</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc.</p> <p>Please refer to the SID for further details. Risk management is going to be an integral part of the investment process. Effective risk management is critical to fund management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of the Regulations.</p>		<p>Mutual Fund Units involve investment risks including the possible loss of principal. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Trading in derivatives carries a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.</p>	
Creation of segregated Portfolio	-		In case of credit event, the Scheme may create segregated portfolio of debt and money market instruments in terms of applicable SEBI regulations/ circulars.	
Risk management strategies	Interest rate risk is managed by a meticulous determination of the modified duration of the portfolio. Extensive analysis of macro-economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments.		Risk management is going to be an integral part of the investment process. Effective risk management is critical to fund management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of the Regulations.

Differentiation with existing open ended debt schemes (as on September 30, 2021, 2021)	<p>For comparison of Existing Schemes, Investment Objective, Asset Under Management (AUM) and number of folios, please refer to point no. 7 on page 29 to 31.</p>													
Investment strategy of the scheme	<p>The investment objective of the Scheme is to generate regular income and capital appreciation by investing in corporate debt across maturities and ratings. The Scheme may also invest in money market instruments. There is no assurance or guarantee that the objectives of the Scheme will be realized.</p> <p>The Scheme will predominantly invest in securities issued by corporate (both private sector and public sectors) including banks and financial institutions across maturities / yield curve and ratings. It will look for opportunities from credit spreads among the range of available corporate debt instruments by cautiously managing the excess risk on its corporate investments.</p> <p>The portfolio maturity will be determined after analyzing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.</p> <p>Emphasis may be given to choosing securities, which, in the opinion of the Fund Manager, are less prone to default risk, while bearing in mind the liquidity needs arising out of the open-ended nature of the Scheme.</p> <p>The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments proposed to be invested in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term / long term financial health of the issuer.</p>	<p>The net assets of the Scheme will be invested in money market instruments. The Scheme will seek to optimize the risk return proposition for the benefit of investors.</p> <p>The investment process will focus on macro-economic research, credit risk and liquidity management. The Scheme will maintain a judicious mix of cash, short term and medium term instruments based on the mandates of the Scheme. As part of credit risk assessment, the Scheme will also apply its credit evaluation process besides taking guidance from ratings of rating agencies. In order to maintain liquidity, the Scheme will maintain a reasonable proportion of the Scheme's investments in relatively liquid investments.</p>												
Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in debt and money market securities, derivatives, securitized debt, short selling, debt instruments having credit enhancements and securities lending.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, etc.</p> <p>Please refer to the SID for further details.</p>	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in money market instruments & debt instruments having credit enhancements.</p> <p>Investments in money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, etc.</p> <p>Please refer to the SID for further details.</p>												
Creation of segregated Portfolio	<p>In case of credit event, the Scheme may create segregated portfolio of debt and money market instruments in terms of applicable SEBI regulations/ circulars.</p>													
Risk management strategies	<p>Interest rate risk is managed by a meticulous determination of the average maturity of the portfolio. Extensive analysis of macro economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments.</p>

Differentiation with existing open ended debt schemes (as on September 30, 2021, 2021)	For comparison of Existing Schemes, Investment Objective, Asset Under Management (AUM) and number of folios, please refer to point no. 7 on page 29 to 31.																							
Investment Strategy of the Scheme	The fund will aim to generate regular income and reduce interest rate risk through investment in a portfolio comprising predominantly of floating rate debt / money market instruments (including fixed rate instruments converted to floating rate exposures using swaps/ derivatives). The scheme may also invest a portion of its net assets in fixed rate debt securities and money market instruments. However, there can be no assurance or guarantee that the investment objective of the scheme would be achieved. The fund manager will try to achieve an optimal risk return balance for the investors of the fund. The investment process will focus on macro-economic research, credit risk and liquidity management. As part of credit risk assessment, the scheme will also apply its credit evaluation process besides taking guidance from ratings of rating agencies. The investment decision will be a function of fund manager's view on prevailing interest rate scenario, maturity & liquidity of the instrument, quality of management and any other related factors.																							
Risk Profile of the Scheme	Mutual Fund units involve investment risks including the possible loss of principal. Scheme specific Risk Factors are summarized below: The scheme carries risks associated with investing in fixed income securities, securitized debt, derivatives, repo transactions in Corporate Bonds, REITs, InvTs etc. Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, creation of segregated portfolio, debt instruments having credit enhancements, etc. Please refer to the SID for further details.																							
Risk Management	Risk management is going to be an integral part of the investment process. Effective risk management is critical to fund management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of the Regulations.																							
Creation of Segregated Portfolio	In case of credit event, the Scheme may create segregated portfolio of debt and money market instruments in terms of applicable SEBI regulations/ circulars.

<p>6. Unit holder's information</p>	<p>Account Statements: On acceptance of the application for subscription, an allotment confirmation specifying the number of units allotted by way of email and/or SMS within 5 business days from the date of receipt of transaction request/ allotment will be sent to the unit holders registered e-mail address and/or mobile number. Consolidated Account Statement: CAS is an account statement detailing all the transactions and holding at the end of the month including transaction charges paid to the distributor, across all schemes of all mutual funds. CAS issued to investors shall also provide the total purchase value/cost of investment in each scheme. Further, CAS issued for the half-year (September/ March) shall also provide a. The amount of actual commission paid by AMC/Mutual Fund to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each scheme. b. The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in. Further, whenever distributable surplus is distributed, a clear segregation between income distribution (appreciation on NAV) and capital distribution (Equalization Reserve) shall be suitably disclosed in the CAS. a) For Unitholders not holding Demat Account: CAS for each calendar month shall be issued, on or before 15th day of succeeding month by the AMC. The AMC shall ensure that a CAS for every half yearly (September/ March) is issued, on or before 21st day of succeeding month, detailing holding at the end of the six month, across all schemes of all mutual funds, to all such investors in whose folios no transaction has taken place during that period. The AMC shall identify common investors across fund houses by their Permanent Account Number(PAN) for the purposes of sending CAS. In the event the account has more than one registered holder, the first named Unit Holder shall receive the Account Statement. The AMC will send statement of accounts by e-mail where the Investor has provided the e-mail id. Additionally, the AMC may at its discretion send Account Statements individually to the investors. b) For Unitholders holding Demat Account: SEBI vide its Circular no. CIR/ MRD/ DP/ 31/2014 dated November 12, 2014 read with other applicable circulars issued by SEBI from time to time, to enable a single consolidated view of all the investments of an investor in Mutual Fund and securities held in demat form with Depositories, has required Depositories to generate and dispatch a single CAS for investors having mutual fund investments and holding demat accounts. In view of the aforesaid requirement, for investors who hold demat account, for transactions in the schemes of Axis Mutual Fund on or after February 1, 2015, a CAS, based on PAN of the holders, will be sent by Depositories to Investors holding demat account for each calendar month within 15th day of the succeeding month to the investors in whose folios transactions have taken place during that month. CAS will be sent by Depositories every half yearly (September/March), on or before 21st day of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios and demat accounts there have been no transactions during that period. CAS sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, IDCW payout, IDCW reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan (including transaction charges paid to the distributor) and transaction in dematerialized securities across demat accounts of the investors and holding at the end of the month. In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories. Investors whose folio(s)/ demat account(s) are not updated with PAN shall not receive CAS. Consolidation of account statement is done on the basis of PAN. Investors are therefore requested to ensure that their folio(s)/ demat account(s) are updated with PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding. For Unit Holders who have provided an e-mail address to the Mutual Fund or in KYC records, the CAS is sent by e-mail. However, where an investor does not wish to receive CAS through email, option is given to the investor to receive the CAS in physical form at the address registered in the Depository system. Investors who do not wish to receive CAS sent by depositories have an option to indicate their negative consent. Such investors may contact the depositories to opt out. Investors who do not hold demat account continue to receive CAS sent by RTA/AMC, based on the PAN, covering transactions across all mutual funds as per the current practice. In case an investor has multiple accounts across two depositories; the depository with whom the account has been opened earlier will be the default depository. The dispatches of CAS by the depositories constitute compliance by the AMC/ the Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations. However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s). Investors whose folio(s)/ demat account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/ demat account(s) are updated with PAN. For folios not included in the CAS (due to non-availability of PAN), the AMC shall issue monthly account statement to such Unit holder(s), for any financial transaction undertaken during the month on or before 15th of succeeding month by mail or email. For folios not eligible to receive CAS (due to non-availability of PAN), the AMC shall issue an account statement detailing holding across all schemes at the end of every six months (i.e. September/March), on or before 21st day of succeeding month, to all such Unit holders in whose folios no transaction has taken place during that period shall be sent by mail/e-mail. Annual Report: Scheme/Plan-wise Annual Report or an abridged summary thereof shall be mailed (email id where e mail id is provided unless otherwise required) to all Unit Holders within four months (or such other period as may be specified by SEBI from time to time) from the date of closure of the relevant accounting year i.e. 31st March each year. and full annual report shall be available for inspection at the Head Office of the Mutual Fund and a copy shall be made available to the Unit holders on request on payment of nominal fees, if any. Scheme wise annual report shall also be displayed on the website of the Mutual Fund (www.axismf.com) and on the website of Association of Mutual Funds in India (www.amfiindia.com). Unitholders whose email addresses are not registered with the Mutual Fund may 'opt-in' to receive a physical copy of the annual report or an abridged summary thereof. Further, AMC shall provide a physical copy of the abridged summary of the Annual Report, without charging any cost, on a specific request received from a unitholder. AMC shall also publish an advertisement every year, in an all India edition of one national English daily newspaper and in one Hindi newspaper, disclosing the hosting of the scheme wise annual report on the website of the Mutual Fund and AMFI and the modes through which a unitholder can submit a request for a physical or electronic copy of the annual report or abridged summary thereof. Fortnightly/Half yearly disclosures: The AMC will disclose the portfolio of the Scheme (alongwith ISIN) on fortnightly / half yearly basis on the website of the Mutual Fund and AMFI within 5 days of every fortnight and 10 days from the close of each half year (i.e. 31st March and 30th September) respectively in a user-friendly and downloadable spreadsheet format. Further, AMC shall publish an advertisement in an all India edition of one national English daily newspaper and one Hindi newspaper, every half year, disclosing the hosting of the half-yearly statement of its schemes' portfolio on the website of the Mutual Fund and AMFI and the modes through which unitholder(s) can submit a request for a physical or electronic copy of the statement of scheme portfolio. The AMC will also provide a dashboard, in a comparable, downloadable (spreadsheet) and machine readable format, providing performance and key disclosures like Scheme's AUM, investment objective, expense ratios, portfolio details, scheme's past performance etc. on website.</p>
<p>6A. Concept of Macaulay duration</p>	<p>The Macaulay duration is a measure of a bond's sensitivity to interest rate changes. It is a measure of the average life of the bond taking into account the coupon payments as well as the repayment of principal. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Because it takes into account both coupons and maturity cash flows, it better reflects the relationship between interest rates and price of the bond.</p>

7. Differentiation with existing open ended debt schemes (as on September 30, 2021, 2021)	The Scheme is not a minor modification of any existing scheme/ product of Axis Mutual Fund. Differentiation is as follows:	
	Axis Short Term Fund	
	Asset Allocation	
	Type of Instrument	Normal Allocation (% of net assets)
	Debt and Money Market instruments	0 - 100
	Units issued by REITs & InvITs	0 - 10
	Primary Investment Objective - The scheme will endeavor to generate stable returns with a low risk strategy while maintaining liquidity through a portfolio comprising of debt and money market instruments.	
	Investment Strategy - The scheme proposes to invest in a diversified portfolio of high quality debt and money market securities to generate stable risk adjusted returns with a low risk strategy.	
	The Schemes portfolio construction will seek to play out the shape of the yield curve of different issuer classes. The fund manager will seek to look for investment opportunities at different maturities of the same yield curve (e.g. the government securities yield curve) as well as look at the differentiated levels of risk premium offered by the market to different class of issuers (e.g. 2 year yields offered by a government security, an NBFC and a manufacturing corporate).	
	Differentiation - An open ended short term debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 1 year to 3 years

	Axis Treasury Advantage Fund	
	Asset Allocation	
	Type of Instrument	Normal Allocation (% of net assets)
	Debt & Money Market Instruments	0 - 100
	Primary Investment Objective - The investment objective is to provide optimal returns and liquidity to the investors by investing primarily in a mix of money market and short term debt instruments which results in a portfolio having marginally higher maturity as compared to a liquid fund at the same time maintaining a balance between safety and liquidity.	
	Investment Strategy - The risk-return profile of this fund positions it in between a liquid fund and short duration income fund. The portfolio strategy seeks to increase yield by having a marginally higher maturity and moderately higher credit risk as compared to a liquid fund at the same time maintaining a balance between safety and liquidity.	
	The Macaulay duration of the portfolio of the Scheme will be maintained between 6 months - 12 months depending on the interest rate view. The Scheme stands to expose to market risk which can get captured partially by "mark to market component" thereby inducing a potential daily volatility. Also, the Scheme will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The Scheme will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.	
	Differentiation - An open ended low duration debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 6 to 12 months

Type of Instrument	Normal Allocation (% of net assets)	
Debt instruments including G-Secs and corporate debt	0 - 100	
Money market instruments	0 - 100	
Units issued by REITs & InvITs	0 - 10	
Primary Investment Objective - The scheme will endeavor to generate optimal returns while maintaining liquidity through active management of a portfolio of debt and money market instruments.		
Investment Strategy - Interest rates have a cyclical movement whereas yields fall, bond prices rise, while the reverse is true in the case when interest rates rise. The investment objective of this scheme is to maximize risk adjusted returns to the investor through an active management of the portfolio, by elongating the duration of the portfolio in a falling interest rate scenario and reducing the duration at a time when interest rates are moving up.		
With the discretion to take aggressive interest rate/duration risk calls, this could mean investing the entire net assets in long dated Government securities and debt instruments (carrying relatively higher interest rate risk/duration risk), or on defensive considerations, entirely in money market instruments. Accordingly, the interest rate risk/duration risk of the scheme may change substantially depending upon the Fund's call.

Investment Strategy - The Scheme will aim to generate credit risk-free returns through investments in sovereign securities issued by the Central Government and/or State Government.		
The Scheme shall invest in Government Securities, which provide reasonable returns generally construed to be without any Credit Risk. The Scheme shall invest in various State and Central Government securities including securities which are supported by the ability to borrow from the treasury or supported only by the sovereign guarantee or of the state government or supported by GOI /state government in any other way as may be permitted by SEBI. It may also invest in repos/ reverse repos in such securities, as and when permitted by RBI.		
The Scheme will also invest in money market securities from time to time upto the prescribed limit. Investment views/decisions will be based on analysis of macro-economic factors to estimate the direction of interest rates and level of liquidity and will be taken on the basis of factors like, prevailing interest rate scenario, Government borrowing program, level of liquidity in the banking system, inflation level, returns offered relative to alternative investments opportunities, quality of the security/instrument, maturity profile of the instrument, liquidity of the security and any other factor considered relevant in the opinion of the fund manager.		
The Scheme may also use derivatives instruments like Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time for the purpose of hedging and portfolio balancing within the limits permitted by the Regulations from time to time.

As this Scheme is positioned at the lowest level of risk-return matrix, it is usually aimed to meet the needs of the Investors who want to deploy their funds for a short period of time.</p> <p>The composition of Indian debt market (both primary and secondary) at the front end of the yield curve is dominated by money market instruments. Accordingly, the Scheme will invest predominantly in money market securities with some tactical allocation towards other debt securities to enhance the portfolio return. The portfolio will be structured to incorporate asset-liability management based on seasonal/historic trends of liabilities. Given the usually observed nature of the profile of liabilities, the fund shall seek to maintain high liquidity with the use of cash/cash equivalent assets.</p> <p>As yield curve has been observed to be flat (overnight to 3 months) during most of the times, attempt will be made to space out the assets uniformly across the maturity buckets. However, any irregularity in the shape of the curve (steep/inverted) will be played out in the portfolio construction after analysing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.</p> <p>The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments proposed to be invested in. - For Corporates, signature of the Authorised Signatory (from the Authorised Signatory List (ASL)) is required.

5. PAYMENTS

- The AMC intends using electronic payment services (NEFT, RTGS, ECS (Credit), Direct Credit, etc.) to the extent possible for dividends / redemptions for faster realization of proceeds to investors. In case an investor wishes to receive payments vide cheques / demand drafts to be sent using a postal / courier service, please provide appropriate written instructions to the AMC / Registrar for the same.
- Please enclose a cancelled cheque leaf (or copy thereof) in case your investment instrument (pay-in) is not from the same bank account as mentioned under bank account details.
- Any communication, dispatch of redemption / dividend payments / account statements etc. would be made by the Registrar / AMC as per reasonable standards of servicing.
- The Debit Mandate is an additional facility available to Axis Bank account holders only.

6. BANK DETAILS

It is mandatory for investors to mention bank account details on the form as per directives issued by SEBI. Applications without this information are liable to be rejected. The Mutual Fund / AMC reserve the right to hold redemption proceeds in case requisite bank details are not submitted.

Option to register multiple bank accounts

The AMC / Mutual Fund has also provided a facility to investors to register multiple bank accounts. By registering multiple bank accounts, investors can use any of their registered bank accounts to receive redemption / dividend proceeds. Any request for a change in bank mandate requires 10 days for validation and verification. Further, these account details will be used by the AMC / Mutual Fund / R&T for verification of instruments (like cheques/DDs/POs) received at the time of subscription / purchase applications to ensure that subscription payments are received only from one of the registered bank accounts. Payments from non-registered bank accounts (called third party payments) will not be accepted (except where permitted as per SEBI regulations). Investors are requested to avail of this facility by filling in the application form for registration of multiple bank accounts available at any of our ISCs / OPAs or on our website www.axismf.com.

Cheques submitted at the time of purchase should be from the beneficiary investors account or from an account mentioned in your Multiple Bank Accounts Registration form (except for minors for amounts less than ₹ 50,000 and Corporates / non-individuals).

Demand drafts submitted at the time of subscription should be accompanied by a banker's certificate clearly stating the investor's name and PAN as well as mentioning that the demand draft has been issued by debiting the investor's own bank account. Pre-funded instruments issued by the bank against cash shall not be accepted for investments of ₹ 50,000 or more. This pre-funded instrument should also be accompanied by a certificate from the banker giving the investor's name, address and PAN.

Payments made through RTGS/NEFT/NECS should be accompanied by a banker's certificate stating that the RTGS/NEFT/NECS payment has been made by debiting the investor's own bank account along with mention of the investor's name and PAN.

7. THIRD PARTY PAYMENTS

When payment is made through instruments issued from a bank account other than that of the investor, the same is referred to as a Third Party payment. Where an investor has opted to register multiple bank accounts (using the 'Multiple Bank Accounts Registration Form'), and purchase payment is made from an account different from what is registered, any one of the following documents need to be provided as proof along with the payment instrument.

- Banker's certificate stating that the investment is from the investor's own bank account along with mention of his name and PAN
- Bank account passbook or statement mentioning the investor's name / PAN

Restriction on acceptance of Third Party payments for subscriptions, and exceptions thereto

- In case of payments from a joint bank account, one of the joint holders of the bank account must be the first account holder under the investment application.
- The Asset Management Company shall not accept subscriptions with Third Party payments except in the following situations:

- Where payment is made by parents/grand parents/related persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding ₹ 50,000 (each regular purchase or per SIP installment). However this restriction will not be applicable for payment made by a guardian whose name is registered in the records of Mutual Fund in that folio.
- Where payment is made by an employer on behalf of an employee under Systematic Investment Plans through payroll deductions.
- Custodian on behalf of an FII or a client.

Documents to be submitted for exceptional cases

- KYC is mandatory for all investors (guardian in case of minor) and the person making the payment i.e. the third party. Investors and the person making the payment should attach their valid KYC acknowledgement letter to the application form.
- Submission of a separate, complete and valid 'Third Party Payment Declaration Form' from the investors (guardian in case of minor) and the person making the payment i.e. third party. The said Declaration Form shall, inter-alia, contain the details of the bank account from which the payment is made and the relationship with the investor(s). Please contact the nearest OPA/ISC of Axis Mutual Fund or visit our website www.axismf.com for the declaration form.

8. KYC

All Applicants (including POAs and Guardians) are required to be KYC compliant irrespective of the amount of investment. In case you are not KYC certified, please fill in the KYC form (individual or Non-Individual). A KYC acknowledgement letter should be submitted along with application for opening a folio or making an investment. Each holder in the folio must be KYC compliant.

Investors may kindly note that new SEBI Circular issued regarding uniformity in the KYC process was effective from January 1, 2012.

- SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries, new Investors are therefore requested to use the common KYC Application Form and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds. The KYC Application Forms are available on our website www.axismf.com.
- The Mutual Fund shall perform the initial KYC of its new investors and shall also accept the details change form for investors who have done their KYC prior to 31st Dec 11.
- It is mandatory to carry out In-Person Verification (IPV) for processing the KYC of its new / existing investors from January 1, 2012.
- Once the KYC and IPV-In Person Verification has been done with any SEBI registered intermediary, the investor need not undergo the same process again with any another intermediary including mutual funds. However, the Mutual Fund reserves the right to carry out fresh KYC/additional KYC of the investor.
- Existing KYC compliant investors of the Mutual Fund can continue to invest as per the current practice.
- Non-individual investors will have to do a fresh KYC due to significant changes in KYC requirements.
- In accordance with SEBI Circular No. CIR/MIRSD/13/2013 dated December 26, 2013, the additional details viz. Occupation details, Gross Annual Income/networth and Politically Exposed Person (PEP)* status mentioned under section 2 & 3 which was forming part of uniform KYC form will now be captured in the application form of the Fund. Also, the detail of nature of services viz. Foreign Exchange/Gaming/Money Lending, etc.,(applicable for first/sole applicant) is required to be provided as part of Client Due Diligence (CDD) Process of the Fund.

The said details are mandatory for both Individual and Non Individual applicants.

*PEP are defined as individuals who are or have been entrusted with prominent public functions in a foreign country, e.g., Heads of States or of Governments, senior politicians, senior Government/judicial/ military officers, senior executives of state owned corporations, important political party officials, etc.

Subsequently, SEBI, vide its circular no. MIRSD/Cir-5/2012 dated April 13, 2012 advised various intermediaries to upload KYC data of its existing customers into the KRA system. While uploading KYC data into the KRA system, intermediaries were also required to highlight such 'Missing/Not Available' KYC information of a customer, which was either not required or not taken previously, but was mandatory as per uniform KYC guidelines issued by SEBI.

INSTRUCTIONS FOR COMPLETING THE APPLICATION FORM (Contd.)

Please read the SID carefully before signing the application form and tendering payment.

8. In accordance with AMFI circular - 35P/MEM-COR/54/2019-20 dated February 28, 2020, it is mandatory, KYC to be verified by KYC Registration Agency before processing redemption. Further, investor requested to complete KYC process before placing redemption request.

- Multiple Investments facility is not available for Axis Children's Gift Fund, Axis Liquid Fund, Axis Overnight Fund, Axis Gold ETF, Axis Nifty ETF, any closed ended schemes, and during NFO period.
- Cheque/ DD/ Debit mandate should be drawn for Total Amount of investment in all three schemes.
- The Cheque/ DD should be drawn favouring "Axis MF Multiple Schemes".
- In case of payment through a Debit Mandate, please tick "Axis MF Multiple Schemes" only.
- If the total amount of investments mentioned on the application is different from the amount mentioned on the accompanying Cheque / Demand Draft / Debit mandate, then the application is liable to be rejected.
- Please mention all scheme/ plan/ option details in the table in section 7A of the form. If the scheme details are provided in any other format, the application is liable to be rejected.
- Investments will be accepted subject to minimum investment criteria applicable for the schemes opted for investment. Even if one of the schemes specified for investment does not satisfy the minimum investment criteria, the application will be liable to be rejected for all schemes.
- This facility is only available for lumpsum purchases.

23. FOREIGN ACCOUNT TAX COMPLIANCE (FATCA)

FATCA & CRS TERMS & CONDITIONS : Details under FATCA & CRS: The Central Board of Direct Taxes has notified Rules 114F to 114H, as part of the Income- tax Rules, 1962, which Rules require Indian financial institutions such as Axis MF to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all our investors and counter parties. In relevant cases, information will have to be reported to tax authorities / appointed agencies.

Towards compliance, we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto.

The onus to provide accurate, adequate and timely inputs in this regard would be that of the investor or counterparty. Should there be any change in any information provided by you, please ensure you advise us promptly, i.e., within 30 days.

Please note that Axis MF will be unable to provide advice to you about any tax status or FATCA/CRS classification relevant to your account. It is your responsibility to ensure that you record your correct tax status / FATCA/ CRS classification. You may seek advice from your tax advisor in this regard.

Please note that you may receive more than one request for information if you have multiple relationships with Axis MF or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information.

FATCA & CRS INSTRUCTIONS:

If you have any questions about your tax residency, please contact your tax advisor. If you are a US citizen or resident or green card holder, please include United States in the foreign country information field along with your US Tax Identification Number. It is mandatory to supply a TIN or functional equivalent if the country in which you are tax resident issues such identifiers. If no TIN is yet available or has not yet been issued, please provide an explanation and attach this to the form.

Investors are requested to provide all the necessary information / declarations to facilitate compliance, considering India's commitment to implement FATCA and CRS under the relevant international treaties.

Please consult your professional tax advisor for further guidance on your tax residency, if required.

In case customer has the following Indicia pertaining to a foreign country and yet declares self to be non-tax resident in the respective country, customer to provide relevant Curing Documents as mentioned below:

INSTRUCTIONS FOR SIP & TOP-UP

- Multiple SIP registration facility is not available for Axis Children's Gift Fund, Axis Liquid Fund, ETF schemes and during NFO.
 - Investors are required to submit Form along with a photo copy/cancelled cheque of Debit Bank Account at least 21 days before the first SIP Installment date.
 - Investor shall have the option of choosing any date of the month as the SIP date except the dates 29th, 30th and 31st. If SIP date is not mentioned, default date would be considered as 7th of every month. If the SIP date falls on a non-business day or a bank holiday, the SIP debit will be processed on the following business day.
 - Please refer below table for minimum monthly/yearly installments:

Scheme	Monthly		Yearly	
	Minimum Amount (₹)	Minimum Installments	Minimum Amount (₹)	Minimum Installments
All Schemes except below schemes, Axis Overnight Fund & Axis Liquid Fund	1000	6	12000	3
Axis Bluechip Fund, Axis Midcap Fund, Axis Multicap Fund, Axis Smallcap Fund, Axis Focused 25 Fund & Axis Nifty 100 Index Fund	500	6		
Axis Long Term Equity Fund*	500	6		

Note: For all schemes, minimum amount is as per above table and thereafter in multiple of ₹ 1.
For Long Term Equity Fund Minimum amount is as per above table and thereafter in multiple of ₹ 500*.
 - If no amount is mentioned minimum scheme amount would be considered i.e. for Axis Long Term Equity Fund minimum amount would be ₹ 500/- and for other schemes minimum amount would be ₹ 1,000/-.
 - For details about the Scheme and its facility please refer the SID, SAI & KIM of the respective schemes / Addendum issued from time to time carefully before investing.
 - The SIP will be discontinued automatically if payment is not received for three successive installments.
 - Investors can discontinue a SIP at any time by sending a written request to any Official Point of Acceptance or to the registrar M/s. KFin Technologies Private Limited. Notice of such discontinuance should be received at least 20 days prior to the due date of the next installment / debit.
 - Mandate will be processed through NACH platform offered by NPCI.
 - As per SEBI circular dated August 22, 2011, Transaction Charge per subscription of ₹ 10,000/- and above shall be charged from the investors and shall be payable to the distributors/ brokers (who have not opted out of charging the transaction charge) in respect of applications routed through distributor/broker relating to Purchases / subscription / new inflows only (lumpsum and SIP), subject to the following:
 - For Existing / New investors: ₹100 / ₹150 as applicable per subscription of ₹10,000/- and above.
 - Transaction charge for SIP shall be applicable only if the total commitment through SIP amounts to ₹10,000/- and above. In such cases the transaction charge would be recovered in maximum 4 successful installments.
 - There shall be no transaction charge on subscription below ₹10,000/-.
 - There shall be no transaction charges on direct investments.
 - There shall be no transaction charges for transaction other than purchases/subscriptions relating to new inflows such as Switches, etc.
 - Transactions carried out through the Stock Exchange platforms for mutual funds shall not be subject to transaction charges.
- The requirement of minimum application amount shall not be applicable if the investment amount falls below the minimum requirement due to deduction of transaction charges from the subscription amount.
- However, the option to charge "transaction charges" is at the discretion of the distributors.
- Investors may note that distributors can opt to receive transaction charges based on type of the Scheme. Accordingly, the transaction charges would be deducted from the subscription amounts, as applicable.
- Investor will not hold Axis Mutual Fund, its registrars and other service providers responsible if the transaction is delayed or not effected or the investor bank account is debited in advance or after the specific SIP date due to various clearing cycles of NACH Debit/ Local/Bank holiday. Axis Mutual Fund, its registrars and other service providers shall not be held responsible or liable for damages / compensation / loss incurred by the investor as a result of using the SIP or ECS / Auto debit facility. The investor assumes the entire risk of using this facility and takes full responsibility.
 - Investor can change bank details for SIP by submitting a "CHANGE OF BANK MANDATE - FOR SIP" form available on the website or at any Investor Service Centre along with cancelled cheque of the new bank with the investor's name printed on it.
 - TOP-UP Facility: Under this facility the Investor can increase the SIP installment at pre-defined intervals by a fixed amount or any time as per the request. This facility is available for individual investors only. For availing the said facilities, investors are required to note the following:
 - Investor willing to register TOP-UP should provide the TOP-UP details along with the SIP enrolment details.
 - The minimum amount for Axis TOP-UP facility is ₹ 500/- and in multiples of ₹ 1/- for all schemes; except Axis Long Term Equity Fund the minimum amount is ₹ 500 and in multiples of ₹ 500 thereafter.
 - If no amount is mentioned as TOP-UP amount under frequency yearly and half-yearly, minimum TOP-UP amount would be considered, i.e., ₹ 500/- for all schemes.
 - TOP-UP frequencies available are Half-Yearly/ Yearly/ Dynamic requested intervals.
 - In case TOP-UP frequency is not indicated, it will be considered as Yearly by Default.
 - The date for Axis Mutual Fund TOP-UP Facility will correspond to the registered SIP.
 - TOP-UP will continue till the End of the SIP tenure by default.
 - In case an investor wishes to change the Top-Up amount, he/she has to provide a cancellation for the existing SIP and register fresh SIP.
 - Only TOP-UP cannot be discontinued anywhere during the SIP tenure.
 - In case of Dynamic Top up option, any changes in the amount can be made only after completion of 6 months from the date of the first installment and minimum gap between two top up requests should be 3 months and amount specified in last request shall be continued till the End of the SIP tenure.
 - Please see the illustration below to know how to calculate SIP Top-Up amount:
 - SIP Starts on 07/May/2016 · SIP ends on 07/12/2099 · SIP amount is ₹ 1000
 - Top-Up amount is ₹ 500 · Top-Up Frequency is Half-yearly

Top-Up date	SIP Amount (₹)	Top-Up Amount (₹)	New SIP Amount (₹)
7-Nov-2016	1000	500	1500
7-May-2017	1500	500	2000
7-Nov-2017	2000	500	2500

STP Enrolment Form - Instruction

- The STP Enrolment Form should be completed in English and in Block Letters only. Please tick in the appropriate box, where boxes have been provided. The STP Enrolment Form complete in all respects, should be submitted at any of the Official Points of Acceptance of Axis Mutual Fund.
- One STP Enrolment Form can be filled for one Scheme/Plan/Option only.
- Investors are advised to read the Key Information Memorandum(s) (KIMs) and Scheme Information Document(s) (SIDs) of the Transferee Scheme(s) and Statement of Additional Information (SAI) carefully before investing. The SIDs / KIMs of the respective Scheme(s) and SAI are available with the ISCs of Axis Mutual Fund, brokers/distributors and also displayed at the Axis Mutual Fund website i.e. www.axismf.com
- Unit holders should note that unit holders' details and mode of holding (single, joint, anyone or survivor) in the Transferee Scheme will be as per the existing folio number of the Transferor Scheme, Units will be allotted under the same folio number. Unit holders' names should match with the details in the existing folio number, failing which; the application is liable to be rejected.
- STP offers unit holders the following two Plans:
 - Systematic Transfer Plan (STP)
 - Capital Appreciation Systematic Transfer Plan (CapSTP)

Investor's can opt for any of the above facility.

Systematic Transfer Plan (STP) offers transfer facility at Daily, Weekly, Fortnightly, Monthly and Quarterly intervals.

Capital Appreciation STP (CapSTP) offers transfer facility at Weekly, Monthly and Quarterly intervals. If no frequency is chosen, Monthly frequency shall be treated as the Default Frequency.

- Under the CapSTP-Weekly Interval, unit holders will be eligible to transfer the entire capital appreciation amount (minimum ₹ 500) by way of capital appreciation from Monday to Friday.
Monthly Interval, unit holders will be eligible to transfer the entire capital appreciation amount (minimum ₹ 500) by way of capital appreciation on the 1st, 7th, 10th, 15th or 25th of each month.
Under the CapSTP-Quarterly Interval, unit holders will be eligible to transfer the entire capital appreciation amount (minimum ₹ 1,000) by way of capital appreciation on the 1st, 7th, 10th, 15th or 25th of the first month of each quarter. The beginning of the quarter could be of any month e.g. January, March, July, September, etc. Please note that no transfers will take place if there is no minimum capital appreciation amount (except for last transfer leading to closure of account). The capital appreciation, if any, will be calculated from the enrolment date of the CapSTP under the folio, till the first transfer date. Subsequent capital appreciation, if any, will be the capital appreciation between the previous CapSTP date (where CapSTP has been processed and paid) and the next CapSTP date.
- The provision of 'Minimum Redemption Amount' as specified in the Scheme Information Document(s) of the respective designated Transferor Schemes and 'Minimum Application Amount' specified in the Scheme Information Document(s) of the respective designated Transferee Schemes will not be applicable for STP.
- Unit holders are required to fill in either the number of instalments or the enrolment period in the enrolment Form, failing which the Form is liable to be rejected.
- In case Day of Transfer has not been indicated under STP- Weekly frequency, Wednesday shall be treated as Default day.
- In case, the Enrolment Period has been filled, but the STP Date and/or Frequency (Monthly/Quarterly) has not been indicated, Monthly frequency shall be treated as Default frequency and 10th shall be treated as Default Date.
- The application for STP/ Cap STP enrolment - Monthly & Quarterly Interval should be submitted at least 7 working days and not more than 90 days before the desired commencement date.
- Please refer below table for min. no. of installments and minimum amount per installment:

STP Frequency	Cycle Date	Minimum Amount* (in ₹)	Minimum Installment
Daily	Monday To Friday	1,000/-	6
Weekly	Monday To Friday	1,000/-	6
Fortnightly	Alternate Wednesday	1,000/-	6
Monthly	1st, 7th, 10th, 15th or 25th	1,000/-	6
Quarterly	1st, 7th, 10th, 15th or 25th	3,000/-	2

If the Transferee scheme is Axis Long Term Equity Fund, minimum STP amount is ₹ 500.

- In respect of STP, the Load Structure prevalent at the time of enrolment shall govern the investors during the tenure of the STP.
- A minimum period of 7 working days shall be required for registration under STP. Units will be allotted/redeemed at the applicable NAV of the respective dates of the Scheme on which such investments/withdrawals are sought from the Scheme.
- The AMC reserves the right to introduce STPs at any other frequencies or on any other dates as the AMC may feel appropriate from time to time. In the event that such a day is a Holiday, the transfer would be affected on the next Business Day.
- The requests for discontinuation of STP/CapSTP shall be subject to an advance notice of 15 days before the next due date for STP.
- STP will terminate automatically if all Units are liquidated or withdrawn from the account or upon the Funds' receipt of notification of death or incapacity of the Unit holder. Further, in case where the balance amount in a folio is less than the STP/CapSTP amount, the entire amount will be transferred to the transferee scheme.
- If STP date/day is a non-Business Day, then the next Business Day shall be the STP Date / Day and the same will be considered for the purpose of determining the applicability of NAV.
- The Trustee reserves the right to change/modify the terms and conditions of the STP. For the updated terms and conditions of STP, contact the nearest ISC or visit our website www.axismf.com
